

## On line meeting minutes of April 16, 2020

Our attendance tonight were as follows.

- Mike and Jessica Doktor
- Larry Reisdorf
- Mark Zimmermann
- Matt Steinberg
- Kim Herlock

Though limited by the number of participants, we were able to make progress on a few issue we have discussed in the past.

- 1) Our objective was to provide answers and guidance on the possibility of a Memorial Day Parade.

In response, it was decided that it would be better to focus further out toward a larger and more inclusive event on or near to the 4th of July. We would like to see a parade, community involvement events, and a regulated and growing Farmer's Market by that date. The market will now take place at the Community Center.

Matt Steinberg has volunteered to produce a flyer for us, and we will get it circulated with the newsletter that is due out soon. Thanks very much, Matt. Of course we will need to be ready to respond to our State's guidelines in regard to the Covid-19 epidemic. Yet we remain optimistic. We hope that everyone can find a way to help or brainstorm this event. We might be in just the right position to help open up the region after a long stay-at-home. Please feel free to contact any of our committee.

- 2) The flower pots for the adopt-a-pot program will be finished soon. There will be nine of them and at only \$20 to sponsor, we have no doubt that they will sold out very quickly. If your interested, please contact Mike Doktor.
- 3) We also spoke of the cost to add a 'booth' or table to the Community and Famer's market. And we are now considering a 100.00 per season rate, or a 20.00 per week space. Contact person for this will be Larry Reisdorf. We are also working on a process to secure any incoming funding that is generated for the BetterCorfu with the appropriate personnel and security.
- 4) Two new web links from our Village of Corfu web page will be added in the next week or so, thanks to Shane and Dillon Hale. We hope to bring us all closer with the ability to log on and remain in contact with the whole Village with the things that matters to YOU. Check them out next week. One is a forum where you can add your voice under a lot of categories, and the other is a listing and contact information from a large number of local businesses. Always keep in mind the balance between public knowledge and privacy on such a website.
- 5) To join us on the conference call in the future, we will be using the Cisco Webex Meeting format. It's east to download and use, and you don't have to be on video, it can be just audio. Any questions please clarify with Jessica Doktor PRIOR to the meeting time so that we can keep thing on pace.
